AMAZON API

◇ ProShip

GAIN CONTROL
Take advantage of Amazon shipping benefits and regulate enhanced controls in order to grow your business

INCREASE EFFICIENCY
Automate your Amazon order processing to ensure on-time package delivery

BOOST COMPLIANCY
Produce carrier compliant labels to eliminate chargebacks and fines

CUT YOUR COSTS
Automatically compare Amazon-eligible shipping service rates to find the lowest shipping cost and even meet Prime two-day shipping requirements

Is Amazon Part of Your Business?

ProShip's Amazon Merchant Fulfilled Network (Amazon's MFN)* API integration gives you complete control over your Amazon shipping business.

Amazon has proven to be one of the most complex and competitive marketplaces in the world. Many sellers utilize Amazon's MFN as an extension of their fulfillment strategy to compete in today's consumer-focused e-commerce world.

Amazon's MFN gives the seller complete control over their Amazon shipping process, including what method to ship and the condition of the packaging when a parcel leaves your facility. Let ProShip provide efficiency in your shipping operations by automating your Amazon shipping processes, allowing you to automatically select the lowest shipping cost and shortest time-in-transit to meet your customers' expectations.

Start automating your Amazon shipping operations by utilizing multi-carrier shipping software certified for Amazon Merchant Fulfilled Network.

31%
OF COMPANIES EXPERIENCED WAREHOUSE EFFICIENCIES WITH MULTI-CARRIER SHIPPING SOFTWARE

Automation leads to greater profits. Multi-carrier shipping software automatically selects the best carrier and provides the fastest delivery—all while saving money on every shipment.

FEATURES & BENEFITS

Rate Shop across Multiple Methods
Automatically compare eligible shipping services and rates to print a compliant label for the fastest, most cost-effective shipping option

Utilize Advanced Date Shopping (ADS)
Use ADS to advance the ship date to accommodate your pick-up times, providing more accurate ship dates

Efficiently Manage Voids
Manage voids through an integrated process, eliminating the need to process a void manually through the Amazon website

Gain Enhanced Controls overAmazon's API Throttling
Set the number of retries, wait time between retries and timeouts, giving you more control around Amazon's responses during high-volume throughput times

Access ProShip Support
Experience 24/7/365 in-house support by ProShip professionals

Amazon is migrating the MFN functionality to their Selling Partner API platform and deprecating the current Web Services on July 31, 2022. ProShip will be supporting this migration by updating our Selling Partner solution to use the migrated MFN functionality. If you are interested in onboarding Amazon in your ProShip system, talk with us about our Selling Partner solution. If you are a current customer who already has the MFN solution, reach out to your ProShip representative if you have questions about our migration plan.
