# Who is Banyan Technology?

BANYAN® TECHNOLOGY

Banyan Technology, the leading provider of over-the-road (OTR) shipping software, delivers enterprise-level, end-to-end freight execution solutions. Our patented LIVE Connect® platform serves as your primary transportation management system (TMS) or direct data connectivity that supports your existing systems.

Banyan's solution provides a comprehensive suite of AI and BI tools that help automate manual shipping processes and identify cost-saving opportunities through multi-mode rate comparison.

"Our partnership with Banyan represents a pivotal step in our mission to provide advanced shipping solutions to the industry. The integration of Banyan's LTL services into our platform not only enhances our capabilities but also reinforces our commitment to providing versatile and robust solutions to our customers."
