ProShip

Shipping software that moves at the speed of **healthcare**

When it comes to shipping healthcare products, everything is considered precious cargo. Whether you're shipping medical devices, medical equipment, medication or pharmaceuticals, it's critical to keep your parcel shipments compliant and on time. And because healthcare is rapidly evolving, it's important that your parcel shipping strategy has the flexibility to keep up.

Parcel shipping challenges healthcare pros face:

- High shipping costs and surcharges
- One-size-fits-all shipping software that doesn't allow for the customization needed to ship healthcare products
- Onboarding new global, national, regional, and other healthcare specific services like UPS Premier in a fast, effective timeline
- Meeting strict FDA validated regulations
- Keeping dangerous goods shipments compliant to avoid delays (i.e., medical device lithium batteries)

ProShip multi-carrier shipping software has the functionality and experience to take on these challenges and empower healthcare companies to ship at lightning speeds, maintain compliance and build stronger-than-ever customer experiences. With a legacy of satisfied and thriving customers, ProShip's advanced technology and automated shipping solutions are the key to its long-standing success.

ProShip and your Enterprise Technology Stack

ProShip's cutting-edge software solution is designed to integrate seamlessly with your existing systems and technologies to simplify your shipping process. Today's top companies rely on ProShip to automate and optimize the way your ERP, OMS/eCOM, WMS and shipping software work together to deliver on customer expectations while reducing the costs in the supply chain.

The ProShip Solution offers key features to take your speed and cost reduction to a whole new level

Automated business rules: Take advantage of enhanced functionality of your supply chain to implement customer specific business rules, which are FDA validated via GIT version control.

Rate Shopping: ProShip owns the most advanced rate shopping functionality on the market, allowing healthcare professionals to choose the most effective and time efficient method of transit to get each package onto the truck and out to customers fast.

Advanced Date Shopping: ProShip's Advanced Date Shopping feature includes planning for delivery by a target date. This algorithm evaluates 9 data sets to maximize the ability.

Hazmat/Dangerous Goods Shipping: Eliminate hazmat shipping headaches with ProShip's integrated Labelmaster Add-on. It automates regulation updates to ensure compliant labeling, packaging and documentation.

Diversify your carrier mix: With a system that makes onboarding carriers simple and cost-effective, ProShip allows you to diversify your carrier mix to ease capacity constraints, avoid surcharges and increase shipping options.

10.7%
The **forecasted growth** of the global medical supply delivery service market over the next 10 years.

Key benefits of ProShip multi-carrier shipping software

You won't outgrow ProShip: ProShip isn't a cookie cutter system, so as you grow, so can your parcel shipping software. No need to worry about carrier APIs not working or having to rebuild the system to keep up with new demands.

You'll reduce fulfillment costs (by a lot): Utilizing ProShip's robust assortment of features cuts costs in every area of your business. Our customers have reported savings of up to 30% simply by switching to ProShip.

You'll achieve 100% compliance at all times: No delays. No chargebacks. ProShip stays a step ahead of mandates, updated surcharges and policies and automatically generates the documentation you need to ship any item, even hazmat.

Eliminate carrier capacity woes: ProShip allows you to automatically rate shop across all carrier partners and services (even same-day and next-day), to manage min/ max volume limits within your enterprise.

Most importantly, ProShip support is simply unmatched

ProShip partners with you to achieve your supply chain goals (not just to offer a commodity transactional package). That means building you a solution backed by 20+ years of experience and supporting it with a world-class group of ProShip engineers and developers. And as your business grows, our solution will scale to meet your needs. It's why we're the only multi-carrier solution to earn FedEx Partner of the Year twice, as well as earn the accolades of other major and regional carriers around the world. **Schedule a demo with our shipping experts today to see how ProShip can accelerate your shipping strategy today, tomorrow, and beyond.**
