

## HOW IT WORKS

# USPS for ProShip

Unlock the full potential of your parcel shipping strategy with this exclusive USPS program. Don't miss this unique opportunity for current customers to access the USPS SHIP platform engine and API, a \$7,500 value, ***at no cost or obligation***. This offer includes a seamless integration via the ProShip Parcel Config app and access to robust USPS features, preparing you for the future of shipping.

### USPS Platform Engine & API

Integrate USPS directly into your ProShip platform with our platform engine and API carrier connection. This universal carrier add (a \$7,500 value) with three days of complimentary services enables real-time rate shopping and access to USPS's extensive delivery network.

### ProShip Parcel Config App

This USPS integration is brought to you via complimentary access to ProShip's [Parcel Config App](#). Add USPS without impacting your existing workflows, and also enjoy an easy shipping configuration tool to manage rate shop groups, maintain shipping locations, and more.

### Access to Robust USPS Features

Leverage USPS's highly resilient processing capabilities, as well as powerful features, such as address validation, address forwarding, and free tracking through API/webhook. Ensure accurate deliveries, reduce errors, and gain insights into your shipping costs.

Ready to add USPS to your ProShip System. **Let's talk.**

**Take action now to get on our priority implementation schedule.** Schedule a call with your Strategic Account Manager today to learn how ProShip can optimize your USPS integration and future-proof your shipping strategy.
