

See green WHEN SHIPPING RED.

When shipping **hazardous materials**, you need to have a strong understanding of detailed and complex regulations.

Not only that, you need to keep current on the ever-changing regulations to stay in compliance and avoid costly penalties or stopped shipments that cost you and your customers time and money.

Save time and eliminate hazmat headaches with a simple add-on to ProShip Multi-Carrier Shipping Software.

Benefits of using ProShip's integrated Labelmaster add-on:

- Eliminates the need to look up regulations and offers enterprise-level location management
- Automatically updates with the latest regulations to ensure compliant labeling, packaging and documentation
- Reduces any compliancy gaps
- Provides trackable savings for your department

Scans commodity info, regulation set, transportation mode

★ 1

◇ ProShip

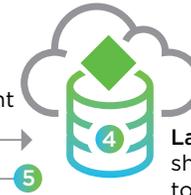

ProShip calls out to Labelmaster via an API & validates the data being sent for the shipment

3

6

LABELMASTER SOFTWARE

Labelmaster validates the shipment data & sends back to ProShip Server, including applicable non-compliance issues

5

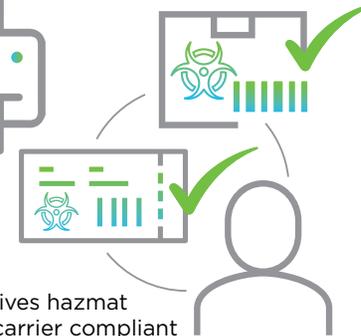

Selects & processes with Labelmaster as the service

2

7

Receives hazmat and carrier compliant labels & documentation

Stay in the GREEN: Rely on the backing of Labelmaster's Dangerous Goods Information System (DGIS) within your ProShip solution so you can streamline your operations and keep shipments compliant.
