THE PROSHIP PRODUCT SUITE INTEGRATES WITH MICROSOFT DYNAMICS 365 FOR FINANCE AND OPERATION VIA RSM'S PROVEN CONNECTOR OR PROSHIP ACCELERATOR.

## Strengthen shipping functionality. Collect a significant ROI.

ProShip's proven partnership with Microsoft Dynamics over 15 years continues to evolve with conversions to D365 F/O, which means that ProShip keeps pace with your demands while optimizing your ROI with its advanced speed, 24/7/365 compliance, unwavering reliability and proactive support.

# How Microsoft Dynamics customers win with ProShip.

## Seamless integration within workflows to automate shipping.

The ProShip team uses a standard webservice data model to integrate ProShip with your ERP.

## Advanced and extendable shipping capabilities.

ProShip's robust technology, knowledge and experience extends the standard for advanced shipping needs, such as hazmat, advanced international, tracking, and more.

## Worry-free, versionless technology.

ProShip's Continuous Integration/Continuous Development (CI/CD) model consistently keeps your shipping environment up-to-date with automatic updates.

Utilizing RSM's proven connector or the ProShip accelerator enables companies to have **greater flexibility** delivering packages by providing shipping, tendering, and label management through major and regional carriers. It's time to increase shipping flexibility and efficiency while reducing costs via effective rate shopping, flexible label creation, shipping compliance, and proactive maintenance.

## Microsoft and ProShip solutions in tandem.

**Microsoft Dynamics<sup>®</sup> 365**

**ProShip**

**SAVES TIME**  
Reduce IT time spent on shipping to increase bandwidth in other areas of your business.

**IMPROVE EFFICIENCY**  
Increases throughput and capacity through automated workflows.

**GAIN AN EDGE**  
Morphes your shipping operation into a competitive advantage.

## Global parcel volume is projected to double to 266 billion parcels by 2026. **Here's why it matters.**

Delaying improvements that accelerate shipping and fulfillment stunt business growth.

Archaic shipping/fulfillment processes don't deliver the speed and scale of success.

Customers demand seamless shipping experiences that addresses cost, speed and convenience.
