

OPEN SKY GROUP + PROSHIP

Bringing together standard warehouse processes, supply chain best practices and proven synergies for customer success.

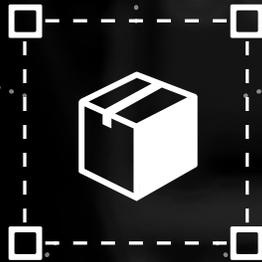

Extended Logistics Capabilities:
Enable scalability for advanced supply chain execution, from basic parcel and LTL processing to sophisticated carrier optimization and international & hazmat shipping.

Real-Time Operational Visibility:
Analyze your operations in near real-time to troubleshoot problems, eliminate bottlenecks, and mitigate revenue loss to get packages out the door quickly.

Seamless Shipping Execution:
Streamline workflows by 30%, and make shipping a competitive advantage by automating rate shopping, carrier compliance, system updates, and business rules.

Strategic Approach:
Develop, define and execute your supply chain and logistics strategy efficiently and effectively with proven industry experts by your side.

Managed Services Offering:
Utilize ProShip & Open Sky Group as an extension of your team, allowing Operations and IT personnel to continue focusing on primary responsibilities.

BRANDS THAT WIN WITH OPEN SKY GROUP AND PROSHIP

BUILT FOR **ENTERPRISE** RETAIL, MANUFACTURING, THIRD-PARTY LOGISTICS AND HEALTHCARE COMPANIES WHO WANT TO **MODERNIZE THEIR SHIPPING OPERATIONS WITH EASE.**

Enabling a seamless supply chain that maximizes revenue through shipping.

ProShip multi-carrier shipping software, coupled with Open Sky Group's supply chain expertise, helps today's enterprise companies eliminate skyrocketing shipping costs, boost carrier compliance, combat labor expenses, and gain efficiencies, while increasing profitability and visibility.

Our joint goal is to help you implement the baseline solutions you need today to make you competitive tomorrow.

How Open Sky Group customers win with ProShip.

Broader carrier choice = improved margins.

ProShip & Open Sky Group ensure you're not sacrificing on quality and reliability by enabling automatic multi-carrier rate shopping. For example, dynamic service downgrading based on promised delivery date can save significant transportation costs.

Simplified carrier compliance.

With ProShip shipping software and Open Sky Group services on your side, you no longer need to worry about carrier changes, surcharges and rate increases impacting your bottom line.

Plug-and-play functionality.

With ProShip and Open Sky Group handling the heavy lifting, shippers experience low-effort implementation with both WMS and carriers. The best part? Increased visibility across your supply chain.

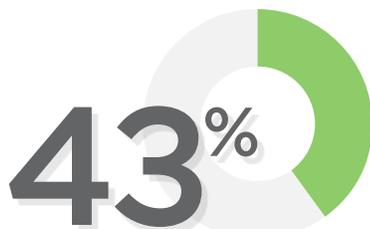

“We recognize the pivotal role of supply chain management in today's business landscape and are always looking for an opportunity to showcase our commitment to enhancing operational efficiency and excellence. Together with ProShip, customers can expect streamlined supply chain workflows and add shipping as a competitive advantage by automating rate shopping, carrier compliance, system updates and business rules.”

— Michael Pinzl, VP of Sales, Open Sky Group

Effortlessly incorporate your ProShip and Open Sky Group solutions into your overall enterprise technology framework.

As the digital transformation of the supply chain progresses, modern enterprise companies necessitate a fully unified Enterprise Software Stack (ESS) that ensures smooth shipping visibility throughout the entire supply chain framework. ProShip's integration tools facilitate effortless incorporation into the diverse components of your technology stack.

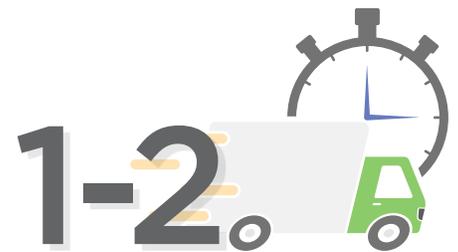

Investing in better shipping pays back BIG.
